

ValveMaster Corp — PCV-200 Pressure Control Valve

TECHNICAL SPECIFICATION & DATASHEET — MODEL: PCV-200

Product Overview: This industrial-grade component is engineered and manufactured to ISO 9001 and CE compliance standards. Designed for harsh environmental operating conditions in heavy hydraulic and mechanical automated systems.

Technical Parameter	Specification	Standard / Unit	Tolerance
Max Regulating Pressure	200	bar	±1.5%
Continuous Operating Pressure	10	bar	Nominal (Datasheet A)
Nominal Flow Rate	45	L/min	at Δp=5 bar
Connection Port Size	DN50 (G 1/2 BSPP)	ISO 228-1	Standard
Electrical Control Signal	4 - 20	mA	Proportional
Body Material	Forged Brass CW617N	EN 12165	Machined
Seal Material	FKM Viton	ASTM D1418	-10°C to 120°C
Supply Voltage	24	V DC	18-30 V range
Net Weight	4.2	kg	±0.1 kg
